

BEDDING THAT INSPIRES FUN!

I'm loving the funky new nursery linen and accessories that is available of late, and the current range from Inspired Crib Bedding is no exception.

Inspired Crib Bedding not only gives you an updated, modern and hip array of cot sheets, cot skirts and the like, they also have on offer a fabulous selection of nursery pillows and cushions. The play cushions are a fun shape and would make perfect play things in time; the pillows co-ordinate perfectly with the bed linen and would look as great in your favourite nursing chair as they would tossed on the play mat!

There's no skimping on quality either - 100% cotton is teamed with the oh so plush minky fabric, resulting in a level of comfort second to none.

Bedding sets, separates and nursery pillows are available from **Modern Nursery**. You can order direct from the Inspired Crib Bedding website and they will ship all over the world.
